Darshan Tejomaya M

Founder & Systems Architect

Malur, Karnataka, India | +91 7676 272 709
me@mvdt.in | mvdt.in | LinkedIn

Technology entrepreneur and systems architect building full-stack applications, IoT systems, automation platforms and real-time operational software. Connecting physical hardware with cloud infrastructure, from microcontrollers to logistics engines.

PROFESSIONAL EXPERIENCE

Co-Founder & Systems Architect

Junk It Out Technologies Pvt Ltd | 2026 - Present

Architected a centralized waste logistics platform. Designed Node.js and WebSocket services for tracking and dispatch, with PostGIS spatial querying and route optimization.

Founder & Lead Architect

Sohan Soft Tech Pvt Ltd | 2024 - Present

Full-stack application development, API architecture and cloud deployments for businesses and educational institutions. Payment integrations, webhooks and automated business workflows.

Lead Architect

Project Silentium - Experimental R&D | 2025 - Present

Experimental digital rights protection using Python and C++. Audio buffer sampling and DSP/FFT analysis for FSK-based ultrasonic identifiers.

Full-Stack Intern & BD Trainee

Edu Tantr | August 2024 - February 2025

Contributed to frontend architecture and full-stack optimization. Supported business development, mentorship and CRM workflows.

SELECTED SYSTEMS

Junk It Out

Development | Android, Node.js, REST APIs, WebSockets, PostGIS, Cloudflare

Waste collection, booking, dispatch, tracking and field operations.

Education Systems & RFID Attendance

Education release stage not listed | RFID hardware: prototype

Student operations, fee workflows, parent communication and reports. ESP32 / ESP8266, MFRC522, Google Sheets, Apps Script and Fast2SMS.

Nirantara Attendance PDF Converter

Release stage not publicly listed | SheetJS, jsPDF, AutoTable

Browser-side Excel processing and structured PDF reporting.

Employee Onboarding & Communication

Release stages not publicly listed | Google Forms, Sheets, Apps Script

PDF generation, email automation, WhatsApp, SMS, short links and interview scheduling. DLT / messaging integrations across Fast2SMS, Airtel DLT and Jio DLT.

Chaiya: WhatsApp College Assistant

Release stage not publicly listed | n8n, WhatsApp APIs, OpenAI API

Admission enquiries, ERP portal navigation assistance and parent communication.

AI Hazard Detection

Experimental prototype | Python, OpenCV, sensors

Experimental computer vision and sensor analysis for environmental hazard alerts.

TECHNICAL ECOSYSTEM

Programming & backend

C, C++, Python, JavaScript, HTML/CSS, Node.js, REST APIs, Webhooks, WebSockets

Data & cloud

PostgreSQL, PostGIS, MySQL, MongoDB, Redis, Google Sheets, Cloudflare, GitHub

Hardware & processing

ESP8266, ESP32, RFID / MFRC522, Arduino, Raspberry Pi, sensors, OpenCV, DSP, FFT, audio processing

Integrations & automation

Google Apps Script, Forms, n8n, WhatsApp APIs, Fast2SMS / DLT, Razorpay, Zoho Pay, Cashfree, PDF generation

EDUCATION

Bachelor of Technology (BTech)

Dayananda Sagar University | 2021 - 2025

Data Structures, Algorithms and System Architecture.

Class XII

Green City PU College | 2019 - 2021

COMPANY PUBLIC RECORD

Junk It Out is listed in the supplied portfolio as Startup India recognized (DIPP265455). This is company recognition; personal awards and certifications are not publicly listed.

SERVICES

Web development, custom applications, education systems, business automation, mobile applications, API integrations, IoT systems, cloud deployment and payment integrations.
